

Performance Measurement and Feedback Research

Goals

- Develop tools to facilitate performance measurement and feedback
- Validate team and inter-team measures
- Demonstrate DMT impact on field effectiveness
- Integrate “best measurement practices”

Approach

- Conduct field studies to develop individual and team measurement and feedback methods
- Quantify performance impacts at multiple levels of abstraction (e.g., competencies, METLs, MOEs, MOPs)
- Develop linkage models for mission and wing-level outcomes
- Develop military utility analysis framework
